Midas is committed to earning your trust by providing the expertise, value and responsiveness you expect.

Full Service Auto Repair Center

With over 1400 locations across the U.S. and Canada, Midas auto repair technicians can perform preventive maintenance and car repair wherever you are. Every Midas store is staffed by ASE-certified mechanics and we're proud to have helped form the Motorist Assurance Program (MAP), an independent industry group that establishes best practices for automotive maintenance and auto repair.

Midas offers complete auto care for your vehicle. Whether it's time for your next factory recommended maintenance visit, a routine oil change, new tires, or repair services on your brakes, muffler and exhaust, suspension, air conditioner, or any other mechanical or electrical component of your car, Midas is in your neighborhood and ready to serve you.

Trusted Auto Service Since 1956

For over 50 years Midas has been caring for cars and trucks in communities across the U.S. and Canada. The first in the industry to offer written estimates before work was performed and the first to give customers a view into service bays, Midas has always stood by our pledge to do right by you and your car.

Our famous Midas Lifetime Guarantee* on brakes, mufflers and exhaust, and shocks and struts means that we've got you covered, for as long as you own your car.

We don't paint mufflers gold any more, but our word is as good as gold. Count on your local Midas for all your car care needs. Trust the Midas Touch®.

We take care of everything — brakes, tires, oil changes — all your auto repair needs

Auto Maintenance

Midas stores can perform factory recommended and routine car maintenance on virtually every make and model. Whether your car's warranty has recently expired and you're looking for an alternative to premium-priced dealership services or you're maintaining an older car, Midas trained repair technicians can help keep your car in shape.

Car Maintenance services offered include:

- Oil Changes
- Tires & Tire Rotation
- Wheel Alignment
- Fluids Flush & Refill
- Filter Replacement
- Serpentine Belt Replacement
- Timing Belt Replacement
- Battery Replacement

When you have auto maintenance performed at Midas, we'll also provide you with a written report showing the results of our Midas Touch® Courtesy Check - a multi-point visual inspection of your car's major systems under the hood and under the car, as well as a tire check. This visual inspection can help identify upcoming maintenance needs that will keep you off the shoulder and on the road.

Auto Repair

At Midas locations, our ASE-certified technicians have the latest diagnostic equipment and know-how to solve your car's problems. For any car repair problem, including common issues listed below, Midas is your one-stop shop for expert service provided at a fair price by professional staff.

Common Auto Repair Issues:

- Brakes and brake repair
- Car suspension, including shocks and struts, ball joints, and control arms
- Muffler and exhaust repair
- Catalytic converter repair and replacement
- Worn or punctured tires
- Engine cooling problems due to radiator leaks, malfunctioning water pump, or low coolant
- Air conditioning and car heating issues
- Starting problems
- Check engine light diagnosis and repair

When you have car repair service performed at any of the 1400 Midas locations throughout the U.S. and Canada, you have the confidence that all of our work is guaranteed.* And when the work done includes brakes and brake repair, exhaust and muffler repair, and suspension repair requiring shocks or struts, you'll get our famous Midas Lifetime Guarantee* on parts, for as long as you own your car.

OIL CHANGE

An oil change can really change your mood. And it will definitely change your oil.

One of the simplest, most effective and inexpensive ways to help protect the life of your car, especially its engine, is to change the oil and the oil filter regularly.

Oil is the lifeblood of your engine. It reduces friction, lessens wear, provides lubrication, forms a seal between the pistons, rings and cylinder walls while helping to cool engine parts. Without the cleaning action of new oil, carbon and varnish buildup would be toxic to the engine. And engine oil even dampens the shock and noise of moving parts.

With a Midas oil change, or any other service, you'll receive a Midas Touch® Courtesy Check. We'll look inside, outside, under the hood and underneath the car, then explain the findings and give you a written report.

Trust the Midas Touch®.

For over 50 years, Midas has been helping drivers across North America maintain their vehicles. With ASE-certified mechanics in all of our stores, we can take care of all of your auto repair and maintenance needs. From oil changes, filter replacements, and fluid flushes to brakes and brake repair, shocks and struts, muffler repair, tires, and wheel alignment, we've got you covered.

While you're there, let us perform a Midas Touch® Courtesy Check, which includes a visual check of the following items:

- Engine air filter
- Brake fluid
- Power steering fluid
- Automatic transmission fluid
- Coolant/antifreeze

We'll also walk you through your vehicle manufacturer's recommendations for replacing these vital fluids and filters.

Oil change near me? The next time you ask this question, just look for your neighborhood Midas.

MUFFLERS & EXHAUST SERVICE

Did you fail your emissions test? Do the smart thing and take your car to Midas for emissions and exhaust systems repair. We'll have you back on the dean's list in no time.

You may think your car's exhaust system is designed only to reduce noise, but it is also responsible for reducing harmful emissions from entering the atmosphere. - Properly functioning mufflers and exhaust systems not only sound better, they are better - for you, your car, and the environment.

Your exhaust system really starts at the front of your car, right behind your engine. Exhaust manifolds connect to the cylinder heads, where they collect exhaust gases. As the gases move through the exhaust system, they're first analyzed by oxygen sensors, then refined by the catalytic converter and, finally, muffled by the muffler.

Midas is North America's leader in mufflers and exhaust system service.

With over 50 years of experience and more than 1,400 neighborhood locations, Midas takes pride in providing high-quality mufflers, pipes, and other exhaust system components for your car or truck. Midas offers catalytic converters that meet stringent EPA and CARB requirements for pollution reduction. Our expert technicians can perform muffler repair, replace O2 sensors, and take care of any other exhaust systems services your car may need.

We offer a full range of exhaust service options, from high performance mufflers and exhaust systems to our famous Lifetime Guaranteed mufflers*, as well as value-oriented replacement mufflers and systems. Stop by Midas today for an exhaust inspection and experience the satisfaction our expertise provides.

So by the time those gases leave the vehicle, your emission system has made your car run smoother, cleaner, and quieter.

Any one of these components can fail and affect everything from your gas mileage to the air you breathe. It's a pretty complex system, but our emissions and muffler repair experts can diagnose the problem and get you right back on the road.

TIRES & TIRE REPAIR

Align, rotate and inflate your tires. You can help keep everyone safe. Like a superhero without the tights.

Wondering if it's time for new tires? One way to tell is to insert a penny, head first, into the tire tread. If you can see Lincoln's head, it's time for tires. But tire tread isn't the only indicator of problems. If your tires are more heavily worn on the inside than the outside, or vice versa, you may also have wheel alignment issues that won't be solved with a new set of tires.

A discount store might not be able to tell you that, but the expert auto repair technicians at Midas understand how all of the components in your car work together. Our total car care philosophy gives you peace of mind knowing you're taking care of the cause of problems, not just the symptoms.

When you visit your neighborhood Midas, technicians will inspect, rotate, and balance your tires, as scheduled by your vehicle's manufacturer. And when it's time to replace them, we will determine the correct size and kind of tire you need for the car and type of driving you do. Finally, we will make sure your new tires are properly installed.

Need a wheel alignment? We'll take care of that, too. So, visit your neighborhood Midas and ask about tire sales and tire repair services. We think you'll find we're a good fit. And don't forget: manufacturer recommended vehicle maintenance typically includes tire services such as tire rotation and wheel alignment

Trust the Midas Touch®.

In addition to being one of North America's leaders in brake and exhaust services, Midas provides expert tire sales and tire repair service. Let us help you maintain your current tires for longer life and, when it's time, offer new tire solutions that fit both your driving style and your budget.

BRAKES & BRAKE REPAIR

Midas Brake Experts

Do you need more runway than a 747 to stop your car? If you answered yes it's time to have your brakes inspected at your neighborhood Midas.

From the brake pedal to hydraulic brake fluid, brake master cylinder to power brake booster, drum brakes to disc brakes and electronic anti-lock brake sensors, Midas technicians know every part of your brake system inside and out and can perform brake repair on any make and model.

No wonder Midas is one of North America's brake service leaders. With locations throughout the US and Canada, you can be confident we'll always be there when you need us.

Brake Warning Signs

You know you need brake repair when:

- the brake dashboard light glows amber, indicating problems with the anti-lock brake system
- the brake dashboard light is red, indicating a system imbalance
- the brake pedal is spongy or slow to respond
- you hear grinding or constant squealing during braking

Any time you notice these or other symptoms, it's a good idea to have your brakes checked. At Midas, if our inspection reveals you do need brake repair service, we will explain exactly what's required, what's optional and provide you with a written estimate before any work is done.

Midas SecureStop™ Brake Service

Midas understands how important brakes are and has developed a 55-point inspection process to diagnose the health of your brake system. Our ASE-certified technicians will let you know which components need immediate attention and which ones can wait. And they'll discuss brake repair options that fit within your budget.

Our quality pads and shoes come with the famous Midas Lifetime Guarantee.* Brake pads and shoes purchased with this guarantee are warranted for as long as you own your car.

*Most vehicles. See manager for limited guarantee terms.
