At Seattle Humane, we rescue pets in need and connect them with families who will love them. We've been a part of the Seattle community for more than 100 years, providing veterinary services, education, and activities that promote animal welfare.

THE OCEAN CLEANUP

Our models indicate that a full-scale system roll-out could clean up 50% of the Great Pacific Garbage Patch in 5 years. Research shows the majority of plastic by mass is currently in the larger debris. By removing the plastic while most of it is still large, we prevent it from breaking down into dangerous microplastics. Combining the cleanup with source reduction on land paves the road towards a plastic free ocean by 2050.
